## LANGUAGES

English – Professional working proficiency (B2)

German – Beginner

Polish – Beginner

## TECHNICAL SKILLS

### EXPERIENCED

- React
- Angular
- RxJS
- TypeScript, JavaScript
- CSS, SCSS, Styled Components
- HTML 5

### SKILLFUL

- XState
- Redux
- Next.js

## PROFILE

Experienced Frontend Developer with a demonstrated history of building complex and feature rich applications, with extensive experience in React, Angular with TypeScript development including unit and E2E testing. Strong engineering professional with a masters degree focused on web development

Proficient in analyzing specifications and source code to tackle intricate challenges. Experienced in investigating and resolving complex problems, including Jira Query Language implementation and customizing client solutions through feature flags and server configurations

I find great value in sharing knowledge. I have experience leading junior developers, conducting interviews, performing code reviews, and teaching web technologies to schoolchildren. Additionally, I contribute to the tech community through writing articles on Medium and preparing talks from time to time

## WORK EXPERIENCE

### SENIOR FRONT-END DEVELOPER @ IPONWEB

Aug 2021 – Present 1 yr 12 mos

Designed and implemented solution for **per-client customisation** based on feature flags and server configs

Proactively drove technical improvements, conducted research. Organized and facilitated effective communication with product owners to refine story descriptions and deliver successful outcomes. Took charge and ownership of **cross-team projects**

I handled ownership of UI customisation, **code reviews, mentoring and hiring**. Collaboration with globally distributed teams

- Automated frontend testing with Jest and Cypress
- Refactored a whole React application to XState, which made easier and less error-prone further development

- NGXS, NgRx
- Mui, Angular Material

#### BASIC KNOWLEDGE

- GraphQL, Apollo
- Cypress
- Docker
- MobX
- Bundlers
- Node.js, Express.js
- Databases: PostgreSQL, MongoDB, Redis
- Linux (Ubuntu, Arch)

#### HAD EXPERIENCE WITH

- Vue.js
- Scala, Java
- WordPress, PHP
- Bash
- Nginx
- Compilers

## HOBBIES

- Musical instruments: guitar, piano
- Travelling
- Board games

#### SENIOR FRONT-END DEVELOPER @ DINS (RINGCENTRAL)

Oct 2019 – Aug 2021 1 yr 11 mos

Development of internal tools for QA engineers and release managers

I **implemented Jira Query Language** search with autocomplete to search test cases by filters in single query string

- **Redesign implementation** on many pages of our application
- Contributed to documentation and participated in design reviews
- **Continually strove to increase code quality:** prepared guide and code style for app styles, initiated mutations analysis and subsequent refactoring, refactored CI and **reduced build time by 5 minutes**

#### FRONT-END DEVELOPER @ T-SYSTEMS

Dec 2018 – Oct 2019 11 mos

Development of SPA for sellers in offline stores: an SPA fat-client with complex business logic on front-end

- Led the redesign implementation for the **entire application to new adaptive design**
- Led meetings regarding the progress of our redesign work to product managers and business stakeholders
- Supported admin dashboard in Vue.js

#### JUNIOR FRONT-END DEVELOPER @ BANDITO

Nov 2016 – Aug 2017, 10 mos

- Created pixel perfect landing pages and corporate web-sites following mockups with further installation on WordPress
- Refactored and refined projects handed over by freelancers
- **Introduced git** and SASS into developing process

## TEACHING EXPERIENCE

#### TUTOR, EPIC SKILLS

May 2018 – Jun 2019, 1 yr 3 mos

I mentored students of this internet technologies school.

#### TEACHER, ITMO UNIVERSITY, CHILDREN COMPUTER CLUB

Sep 2016 – Jun 2019, 3 yrs

I led the stream of web-technologies courses for children and was in charge of **educational programs preparation:**

- Frontend basics (Pure HTML, CSS, JavaScript, jQuery, Bootstrap)
- Backend (PHP, MySQL, WordPress)

## HIGHER EDUCATION

#### ITMO UNIVERSITY

2017 – 2019

**Master**, Web Technologies, 4.87

My thesis was about reactive programming paradigms in the web and its implementations.

**ITMO UNIVERSITY**

2013 – 2017

**Bachelor**, Computer graphics teaching, 4.73

With thesis "Development of distant learning modules «CSS and JavaScript» for children computer education"

---

## ADVANCED TRAININGS

---

**ADVANCED ANGULAR: ENTERPRISE & ARCHITECTURE**

Dec 2021

**FRONT-END SCHOOL #1, T-SYSTEMS**

Okt 2018 1,5 mos

**NODE.JS SCHOOL, YANDEX.MONEY**

Sep 2017 2 mos

---

## PUBLIC SPEAKING

---

**JIRA-LIKE SEARCH? EASY**

Public talk at DINS [Slides](#)

**VIM: THERE IS A WAY TO EXIT BUT NO WAY BACK**

PiterCSS meetup #31 [Slides](#)

**RENDERING PIPELINE. STYLES AND SPECIFICATION. FLEXBOX & GRID. PREPROCESSORS**

Front-end school #3, T-Systems [Slides](#)

**GIT BASICS FOR QA ENGINEERS**
