LANGUAGES

English – Professional working proficiency (B2)

German – A2

Polish – A1

TECHNICAL SKILLS

EXPERIENCED

- React
- Angular
- RxJS
- TypeScript, JavaScript
- CSS, SCSS, Styled Components
- HTML 5

SKILLFUL

- XState
- Redux
- Next.js

PROFILE

Experienced Frontend Developer with a demonstrated history of building complex and feature rich applications, with extensive experience in **React, Angular** with **TypeScript** including testing with **Jasmine, Jest** and **Cypress E2E**. Implemented feature with **Node.js, GraphQL**. Strong engineering professional with a **master's degree** **focused on web development**

Proficient in analyzing specifications and source code to tackle intricate challenges and develop **complex UI components**. Experienced in investigating and resolving complex problems, including Jira Query Language implementation and per-client customisation solutions through feature flags and server configurations

I find great value in sharing knowledge. I have experience leading mentoring junior developers, conducting **interviews, performing code reviews**, and teaching web technologies to schoolchildren. Additionally, I contribute to the tech community through writing articles on Medium and preparing talks from time to time

WORK EXPERIENCE

SENIOR FRONT-END DEVELOPER @ IPONWEB

Aug 2021 – Present 2 yr 2 mos

Implemented **Node.js backend with GraphQL** to be used as a middleware between several Frontend applications

Proactively drove technical improvements, conducted research. Organized and facilitated effective communication with product owners to refine story descriptions and deliver successful outcomes. Took charge and ownership of **cross-team projects**

I handled ownership of **UI customisation in Angular, code reviews, mentoring and hiring**. Collaborated with globally distributed teams

- Automated frontend testing with Jest and Cypress
- Refactored a whole **React** application to XState, which made easier and less error-prone further development

- NGXS, NgRx
- Mui, Angular Material

BASIC KNOWLEDGE

- GraphQL, Apollo
- Node.js, Express.js
- Cypress
- Docker
- MobX
- Databases: PostgreSQL, MongoDB, Redis
- Linux (Ubuntu, Arch)

HAD EXPERIENCE WITH

- Vue.js
- Scala, Java
- WordPress, PHP
- Bash
- Nginx
- Compilers

HOBBIES

- Film photography
- Travelling
- Board games

SENIOR FRONT-END DEVELOPER @ DINS (RINGCENTRAL)

Oct 2019 – Aug 2021 1 yr 11 mos

Development of internal tools for QA engineers on **Angular**

I **implemented Jira Query Language** search with autocomplete to search test cases by filters in single query string

- **Redesign implementation with HTML5, CSS3 and SCSS** on many pages of our application
- Contributed to documentation and participated in design reviews
- **Continually strove to increase code quality**: prepared guide and code style for app styles, initiated mutations analysis and subsequent refactoring, refactored CI and **reduced build time by 5 minutes**

FRONT-END DEVELOPER @ T-SYSTEMS

Dec 2018 – Oct 2019 11 mos

Development of **Angular** fat-client SPA with complex business logic for offline store agents

- Led the redesign implementation for the **entire application to new adaptive design**
- Led meetings regarding the progress of our redesign work to product managers and business stakeholders
- Supported admin dashboard in Vue.js

JUNIOR FRONT-END DEVELOPER @ BANDITO

Nov 2016 – Aug 2017, 10 mos

- Created **pixel-perfect, cross browser** landing pages and corporate web-sites following mockups with further installation on WordPress
- Refactored and refined projects handed over by freelancers
- Introduced Git, **React and SASS** into developing process

HIGHER EDUCATION

ITMO UNIVERSITY

2017 – 2019

Master, Web Technologies, 4.87

My thesis was about reactive programming paradigms in the web and its implementations.

ITMO UNIVERSITY

2013 – 2017

Bachelor, Computer graphics teaching, 4.73

With thesis "Development of distant learning modules «CSS and JavaScript» for children computer education"

TEACHING EXPERIENCE

TUTOR, EPIC SKILLS

May 2018 – Jun 2019, 1 yr 3 mos

I mentored students of this internet technologies school.

TEACHER, ITMO UNIVERSITY, CHILDREN COMPUTER CLUB

Sep 2016 – Jun 2019, 3 yrs

I led the stream of web-technologies courses for children and was in charge of **educational programs preparation**:

- Frontend basics (Pure HTML, CSS, JavaScript, jQuery, Bootstrap)
- Backend (PHP, MySQL, WordPress)

ADVANCED TRAININGS

ADVANCED ANGULAR: ENTERPRISE & ARCHITECTURE

Dec 2021

FRONT-END SCHOOL #1, T-SYSTEMS

Okt 2018 1,5 mos

NODE.JS SCHOOL, YANDEX.MONEY

Sep 2017 2 mos
