LANGUAGES

English – Professional working proficiency (B2)

German – Beginner

Russian – Native

SKILLS

EXPERIENCED
- React
- Angular
- RxJS
- TypeScript
- JavaScript
- CSS, SCSS
- HTML 5

SKILLFUL
- XState
- Redux
- Styled Components
- Next.js
- NGXS
- NgRx
- Angular Material

PROFILE

I have experience building complex and feature rich applications with Angular, React with Redux and GraphQL. I have solid knowledge of JavaScript and TypeScript, a good grasp of HTML and CSS applied to application redesign

I read specifications and source code of used libraries. I like to solve complex problems like implementation of Jira Query Language search. Introduced feature flags and server configs to support customisation for different clients

Sharing knowledge is valuable for me: I was leading junior developers, interviewing, doing code reviews and taught schoolchildren web technologies. I write articles on Medium and prepare talks from time to time

WORK EXPERIENCE

SENIOR FRONT-END DEVELOPER @ IPONWEB
Aug 2021 – Present 1 yr 8 mos

Introduced feature flags and server configs to support different feature set for each client

Act as a frontend sub-lead, own and prioritise technical epics and push them to delivery.

Feature implementation for a set of backoffice tools with React, GraphQL. Refactored a whole application to XState, which made easier further development.

SENIOR FRONT-END DEVELOPER @ DINS (RINGCENTRAL)
Oct 2019 – Aug 2021 1 yr 11 mos

I implemented Jira Query Language search with autocomplete to search test cases by filters **in single query string**

- **Redesign implementation** on many pages of our application
- Initiated store data mutations analysis and subsequent refactoring
- Prepared guide and code style for writing application styles

- Refactored CI pipeline steps to Bash, which **reduced build time by 4-5 minutes**

FRONT-END DEVELOPER @ T-SYSTEMS
Dec 2018 – Oct 2019 11 mos

Development of SPA for sellers in offline stores: an SPA fat-client with complex business logic on front-end

- Leaded the redesign implementation for the **entire application to new adaptive design**
- Leading meetings in english regarding the progress of our redesign work
- Supported admin dashboard in Vue.js

JUNIOR FRONT-END DEVELOPER @ BANDITO
Nov 2016 – Aug 2017, 10 mos

- Landing pages and corporate web-sites with further installation on WordPress
- Refactored and refined projects handed over by freelancers
- **Introduced git** and SASS into developing process

TEACHING EXPERIENCE

TUTOR, EPIC SKILLS
May 2018 – Jun 2019, 1 yr 3 mos

I mentored students of this internet technologies school.

TEACHER, ITMO UNIVERSITY, CHILDREN COMPUTER CLUB
Sep 2016 – Jun 2019, 3 yrs

I led the stream of web-technologies courses for children and was in charge of **educational programs preparation**:

- Frontend basics (Pure HTML, CSS, JavaScript, jQuery, Bootstrap)
- Backend (PHP, MySQL, WordPress)

HIGHER EDUCATION

ITMO UNIVERSITY
2017 – 2019
Master, Web Technologies, 4.87

My thesis was about reactive programming paradigms in the web and its implementations.

ITMO UNIVERSITY
2013 – 2017
Bachelor, Computer graphics teaching, 4.73

With thesis "Development of distant learning modules «CSS and JavaScript» for children computer education"

ADVANCED TRAININGS

ADVANCED ANGULAR: ENTERPRISE & ARCHITECTURE
Dec 2021

FRONT-END SCHOOL #1, T-SYSTEMS
Okt 2018 1,5 mos

NODE.JS SCHOOL, YANDEX.MONEY
Sep 2017 2 mos

PUBLIC SPEAKING

JIRA-LIKE SEARCH? EASY
Public talk at DINS Slides

VIM: ВЫХОД ЕСТЬ, ПУТИ НАЗАД НЕТ
(eng. Vim: there is exit but no way back)
PiterCSS meetup #31 Slides

ПРОЦЕСС ВИЗУАЛИЗАЦИИ. СТИЛИ И СПЕЦИФИКАЦИЯ. FLEXBOX & GRID. ПРЕПРОЦЕССОРЫ
(eng. Rendering pipeline. Styles and specification. Flexbox & Grid. Preprocessors)
Front-end school #3, T-Systems Slides

GIT BASICS FOR QA ENGINEERS
Talk at T-Systems Slides
